The natural gas rebate program is for Elberton Utilities RESIDENTIAL natural gas customers only. To qualify for a rebate, customers must be a current residential natural gas customer of Elberton Utilities, or have a natural gas line adjacent to the location so new service can be installed. Applicant must be the owner of the property on which the new appliances(s) will be installed. Installations must meet local building codes and must pass inspection. Proof of purchase is required and must be for new equipment only. Used or refurbished equipment is not eligible. The utility account must be in good standing with good payment history. The customer may receive a cash rebate, or choose to have a credit applied to the utility account. Rebates are processed within 30 days of application. The rebate application must be filed with Elberton Utilities within 30 days of installation. Applications made before installation occurs will be held until the appliances are installed and pass inspection.
